Easily Arm and Disarm

Easily arm and disarm, easily switch security modes.

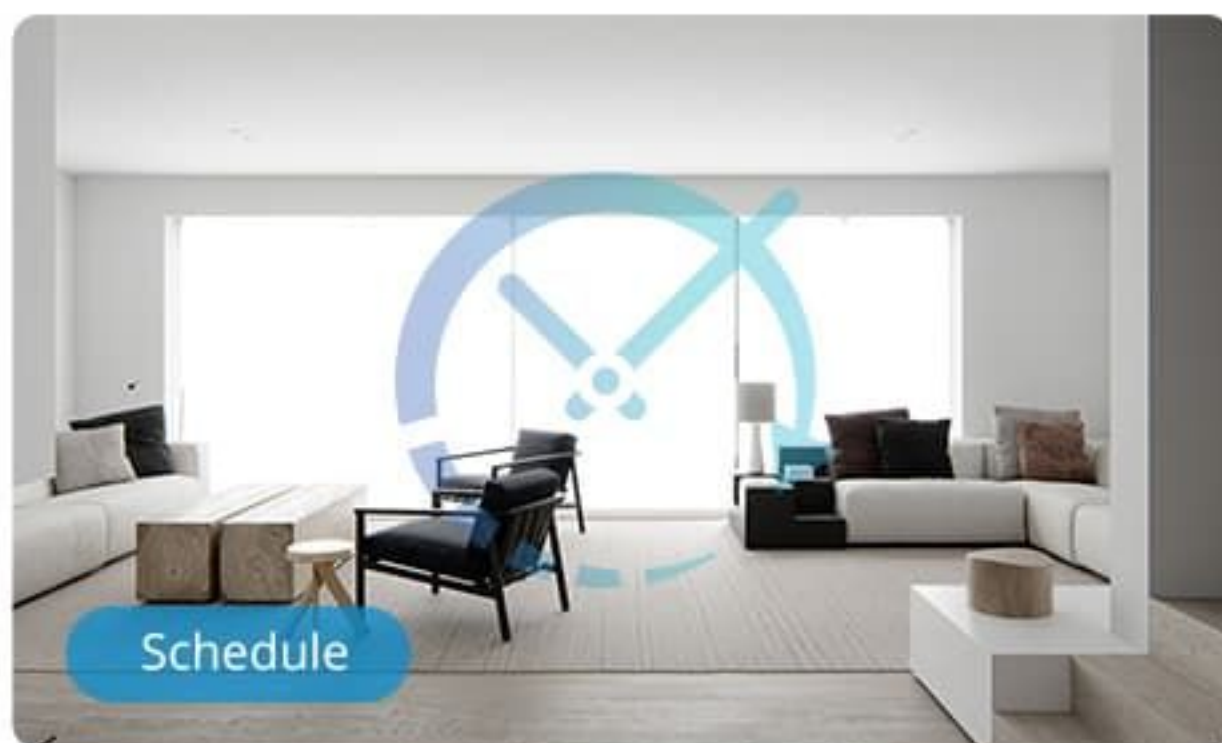

Forget to arm when you go out? Don't worry!
Arm on App now.

One-click to switch to Home Mode.

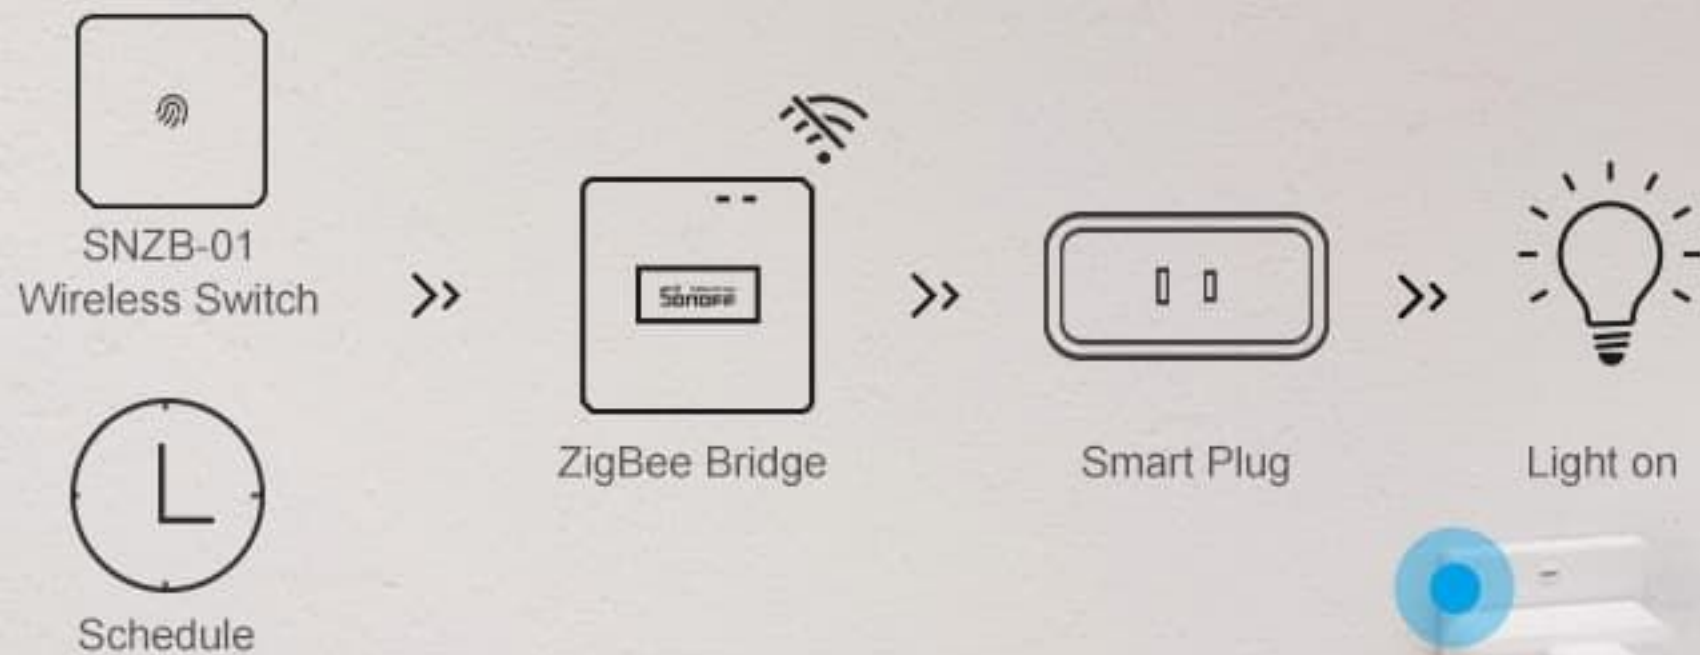

Gentle-tap to enable Sleep Mode.

Schedule to switch Mode automatically.

Efficient & Reliable Local Smart Scene

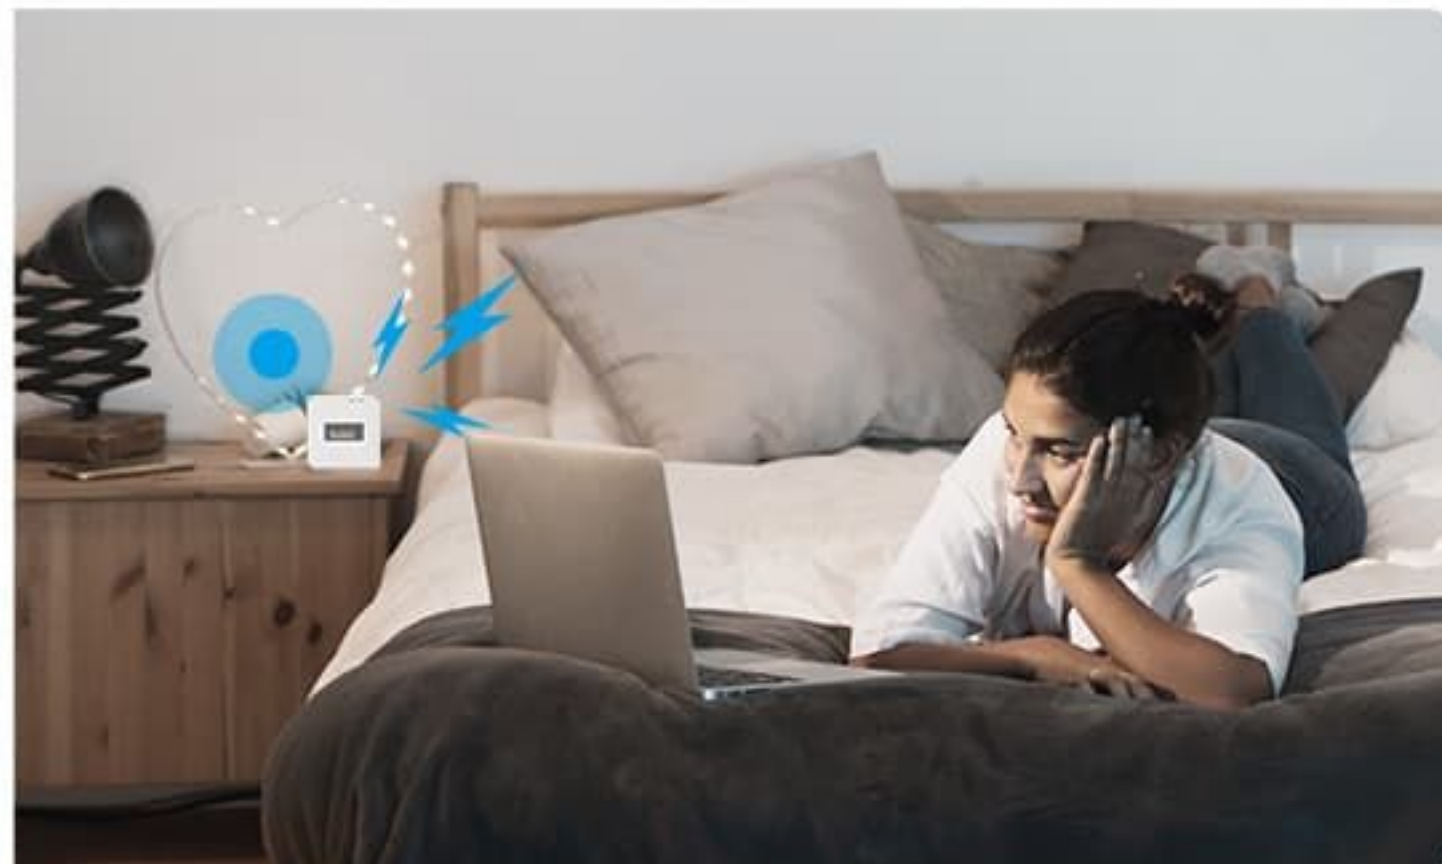

The local smart scene always works well even Wi-Fi is disconnected. Built-in high-precision local RTC, a short power outage will not affect the time synchronization. Time schedule can return work once power restoration.

*The local scene is for Zigbee devices only.

The Use of Bridge Buzzer is Not Only Security Alarm

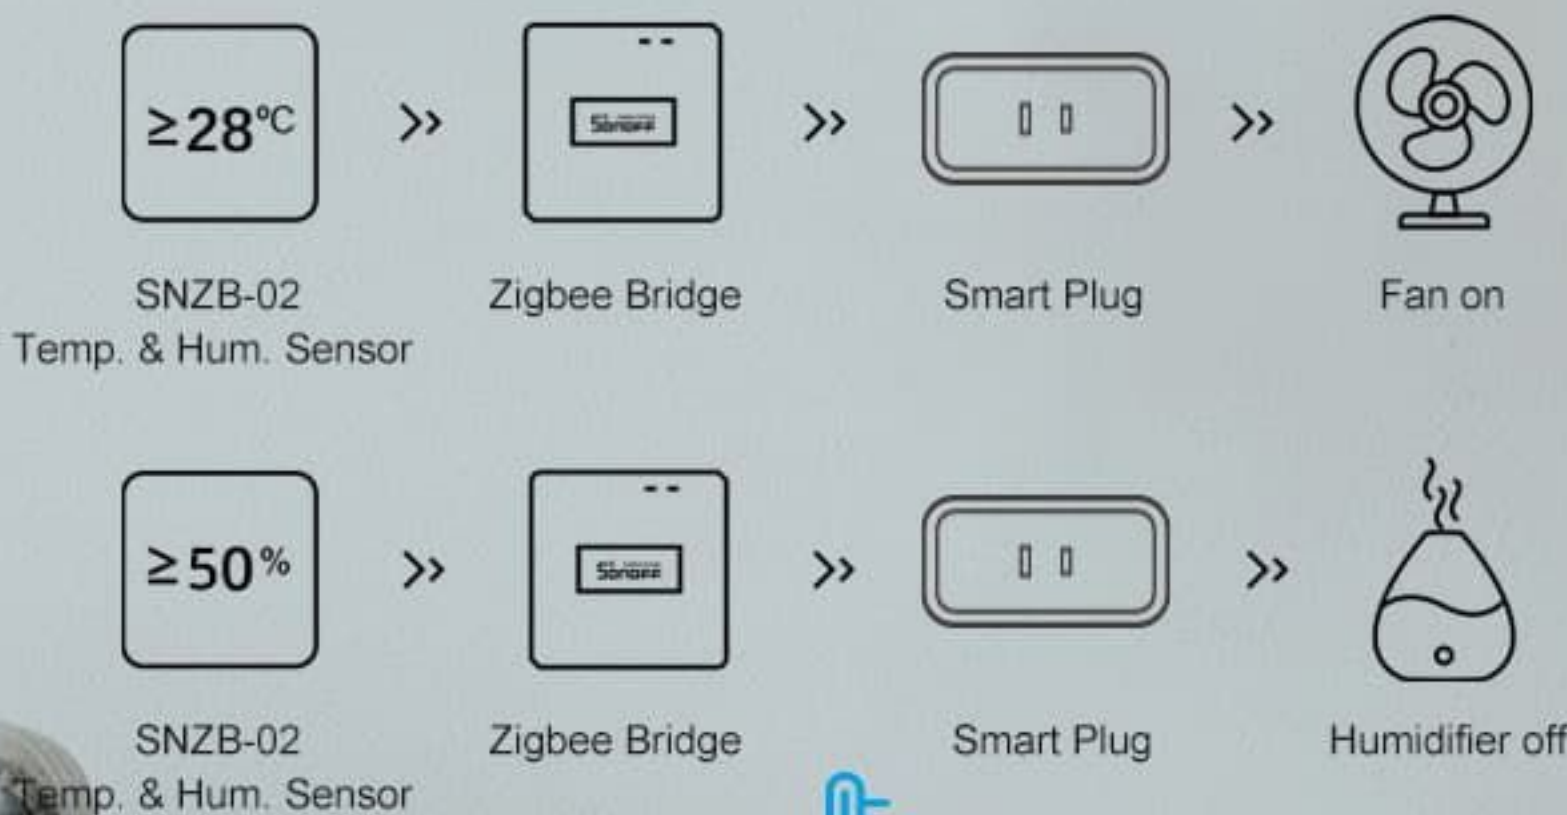

Visitor? Bridge and wireless button can act as the doorbell.

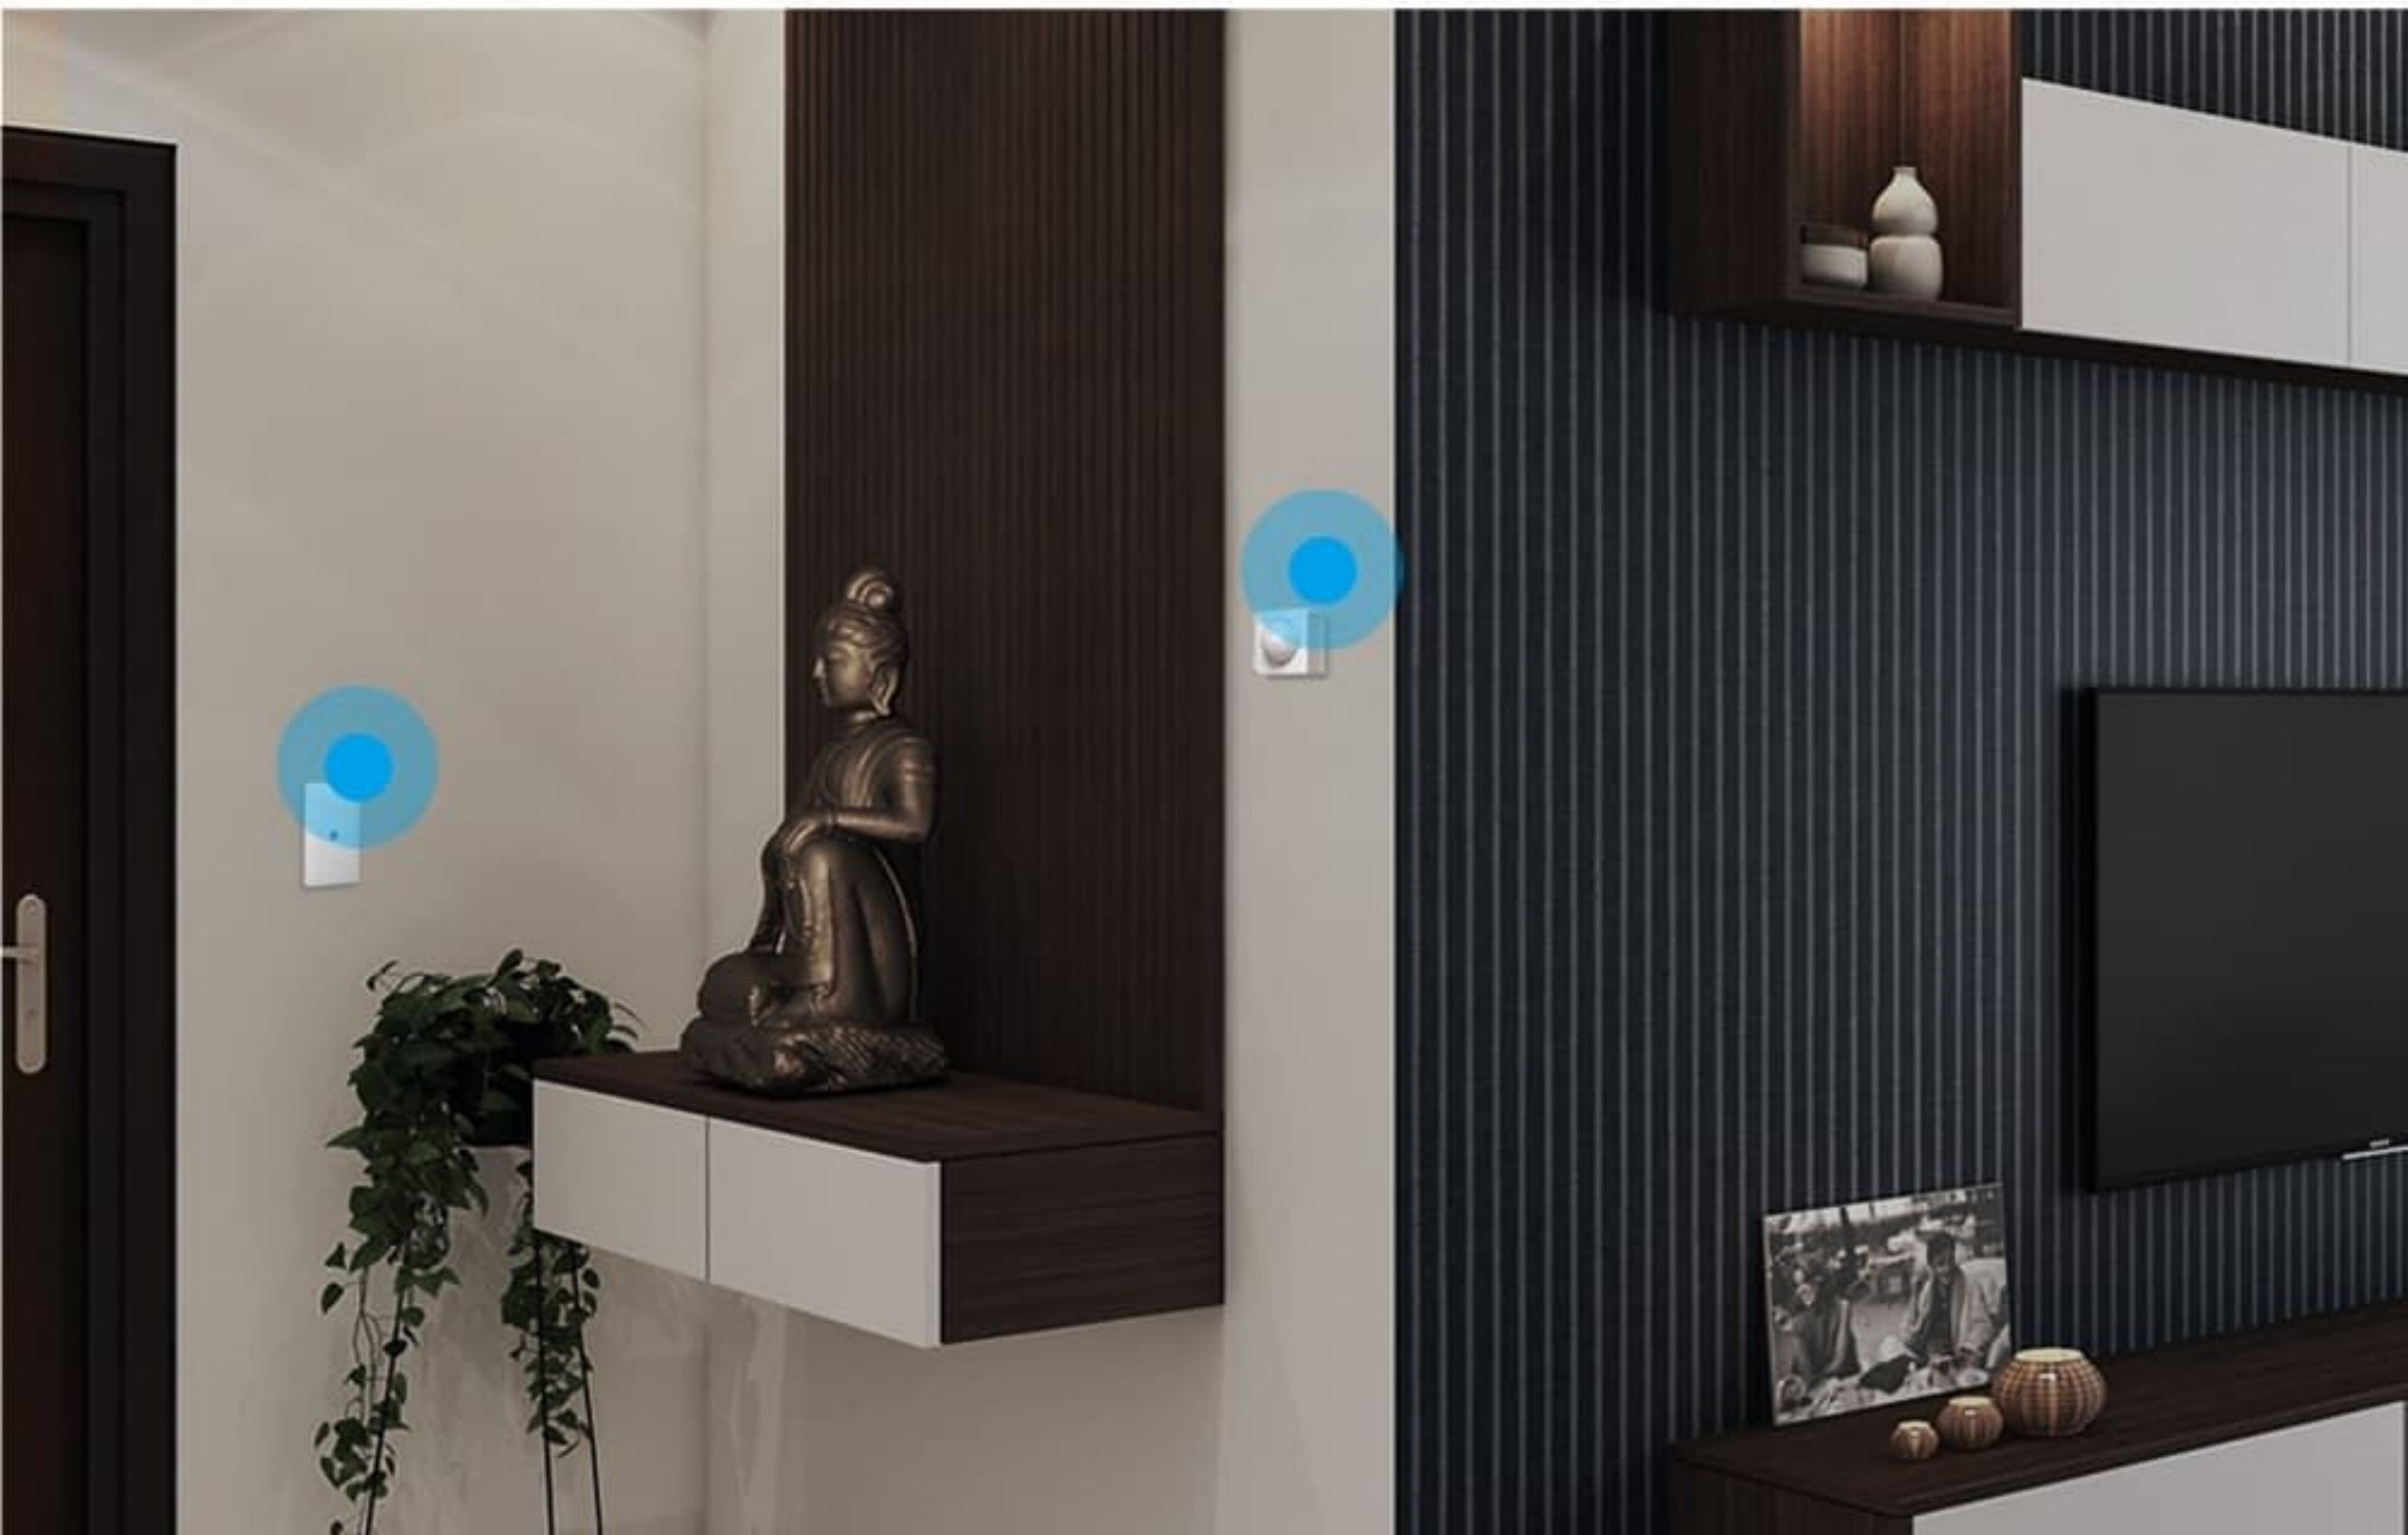

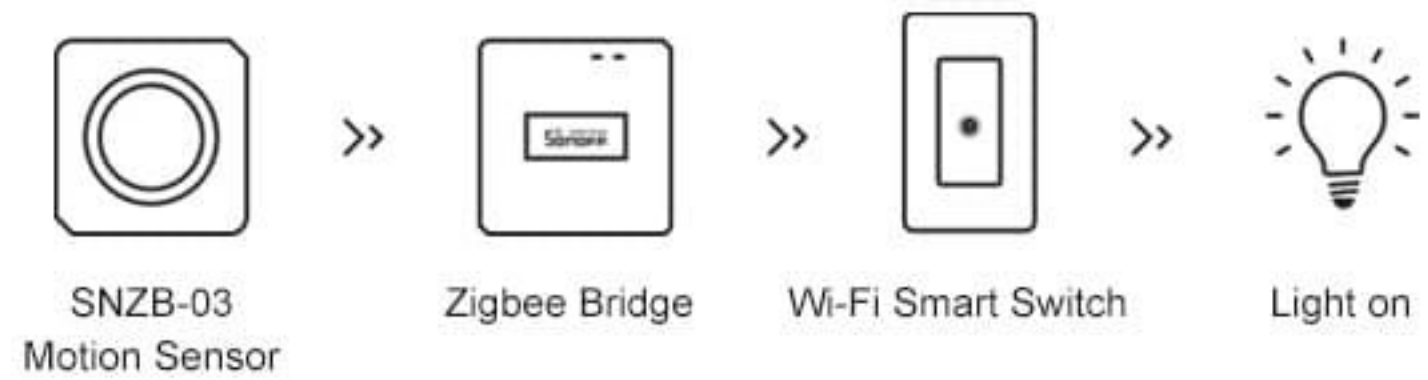

Time to breakfast? Click to call your kid.

Create Comfort Home

The sensor detects the temperature and humidity of your home in real-time, it will trigger the fan or humidifier on/off automatically based on your setting to maintain comfort.

Motion - Lights On

Door Closed - Lights Off

Turn off your hallway light automatically when you leave home.

Hands-free Control from Smart Assistants

Turn on/off devices or ask for the temperature or humidity with your voice? Connect Alexa or Google Assistant to simplify your daily life.
